Press Release

Church Point nonprofit to hold 4th annual golf tournament

Buggy Town Playground, the finest playground in Acaidana, was built in 2008 at a cost of approximately \$120,000. The entire cost of the project was financed through a variety of local fundraising projects. No grants were received for the playground nor were any public funds used for it. Because Buggy Town Playground was built entirely with volunteer labor, the value of the playground is well over \$300,000.

One of the early fundraisers for the playground was a golf tournament in 2007 which raised approximately \$3000. Since that first tournament in 2007, Church Point Community Development has raised over \$8000 on golf tournaments. All of the proceeds go directly to community projects in Church Point including Buggy Town Playground, Le Vieux Presbytere Museum, and Community Investors, Inc., another Church Point nonprofit.

The fourth golf tournament will be held Friday, September 10, 2010 at Bayou Bend Country Club with a start time of noon. Golfers will be competing for cash and each par three will have a fantastic hole in one prize. Golfers will also receive door prizes and goody bags. Entry forms are available at Bayou Bend, Farmers State Bank in Church Point, Nina's in Church Point, and the Church Point News. Forms and more information are also available by calling Chris LeBas at 281-0754 or Christine Benoit at 684-3306.

For Release 9 a.m., December 30, 2009
